The solution requires the 3 modules below which can be installed on either (1) a dedicated HCL Notes Windows workstation with a connected modem, or (2) a HCL Domino Windows Server with a connected modem. ⚠ The fax sender and receiver must be using the same or similar fax solution to ensure maximum security. i.e. HFax receiving a fax from a traditional fax machine, not a fax cloud provider

- HFMC OEM 6.0 for Windows
- ODBC dBASE driver

You can use any fax modem, but we recommend the modems below. Note: If you plan to use the touch-tone features for remote fax retrieval, fax on demand or voicemail, then you would need a voice fax modem.
